

IPTEK, PENDIDIKAN TINGGI ERA RI-4.0_INOVASI & KREATIVITAS PEMBELAJARAN

Murshal Manaf PRODI MAGISTER PWK UNIBOS
STADIUM GENERALE PASCASARJANA UNIBOS, 5 FEBRUARI 2018

- Perkembangan Sainstek sangat pesat memberikan dampak kehidupan manusia.
- **Banyak kemudahan dan inovasi** yang diperoleh dengan adanya dukungan teknologi digital. Layanan cepat,, memiliki jangkauan koneksi. Hidup menjadi lebih mudah dan murah.
- **Dampak ERI 4.0** : Peran manusia setahap demi setahap berganti mesin otomatis. Akibatnya, jumlah pengangguran semakin meningkat.
- Hal ini tentu saja akan menambah beban masalah lokal maupun nasional. Oleh karena itu, untuk memanfaatkan peluang dan menjawab tantangan ERI 4.0
- Dosen, mahasiswa dan alumni Pascasarjana UNIBOS wajib memiliki berkemampuan literasi data, teknologi dan manusia

Computing Disrupts Language

Keterampilan Belajar Baru...

Sedang berlangsung:

- Pedagogi
- Andragogi

Learning:

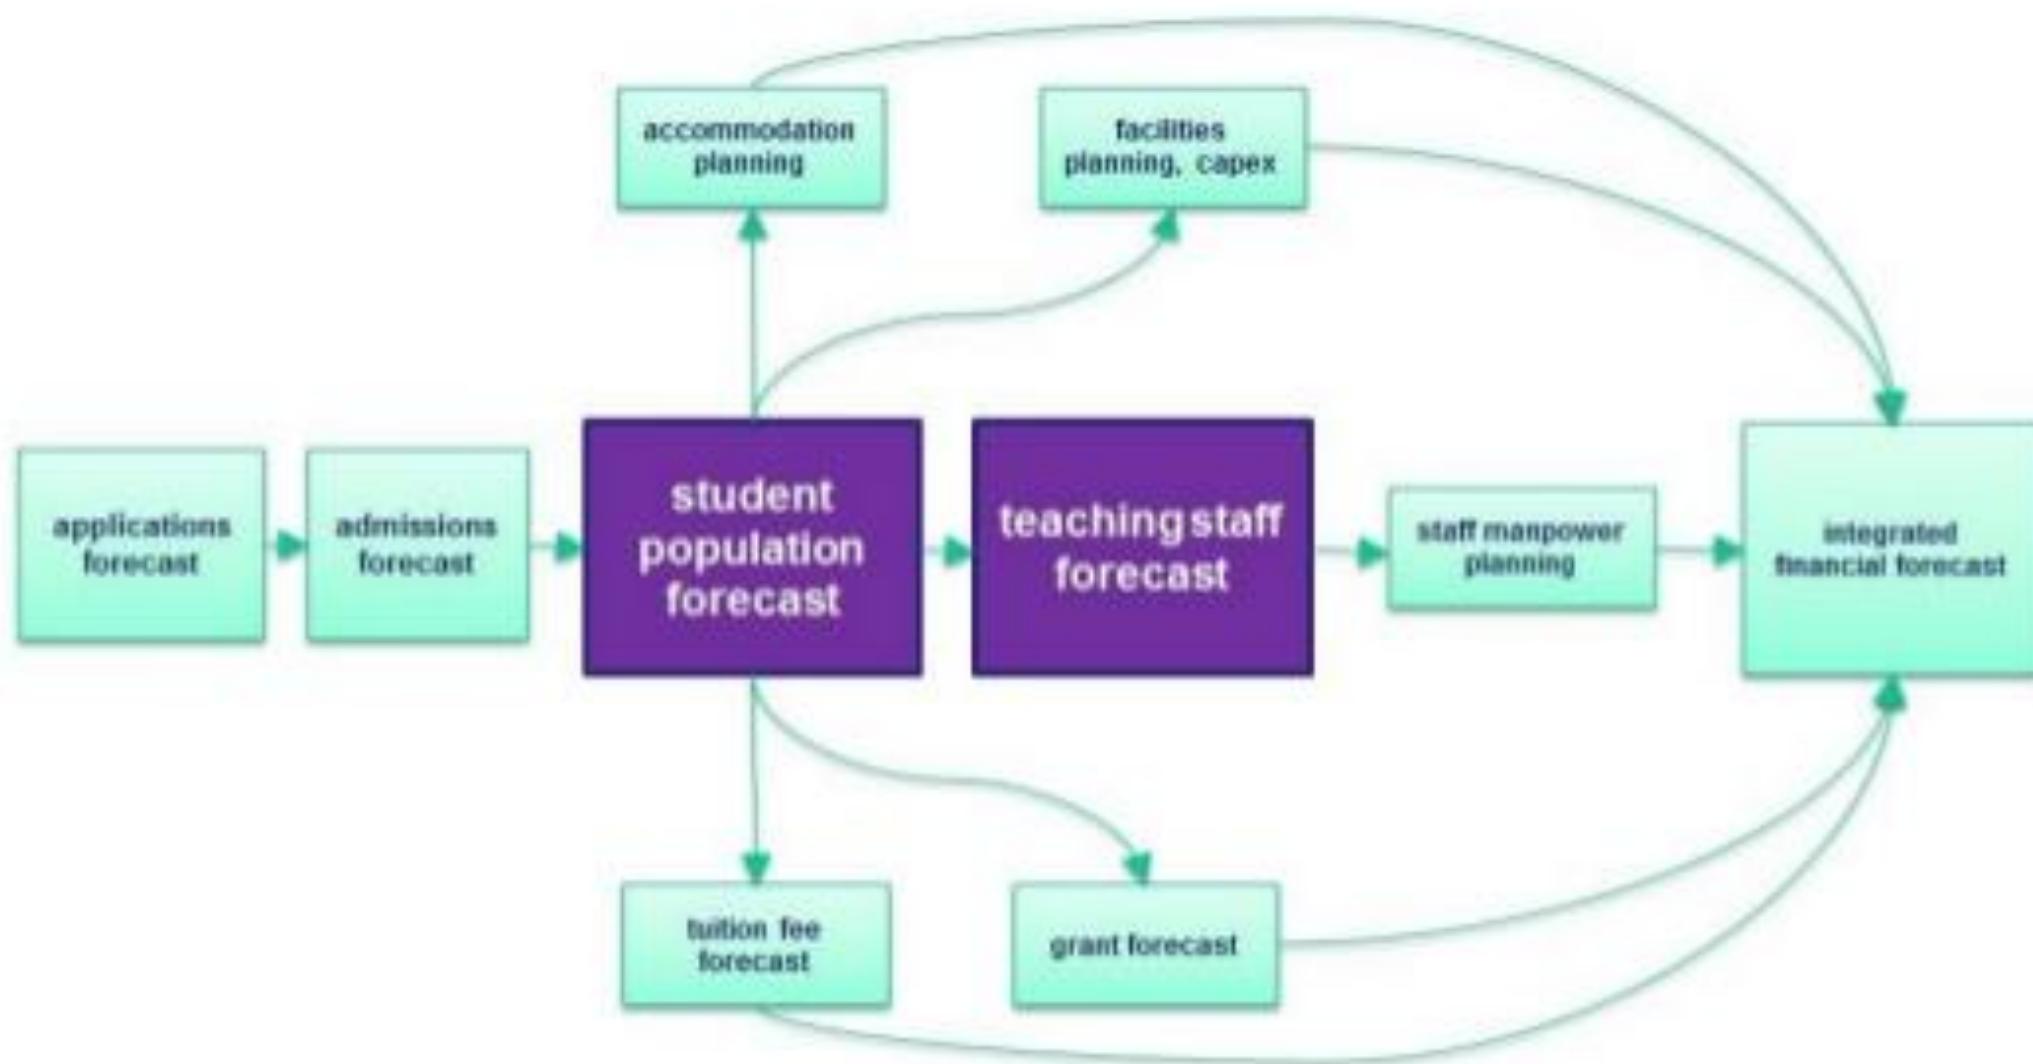

1. what knowledge to learn,
2. what skills to acquire,
3. what experiences to undertake, and
4. what personality to develop.

Fokus : Program, design, peta belajar, deeply, kurikulum riset, online net enviromental

Model Bisnis Konvensional

Peluang Universitas 4.0

Transformasi Institusi

Model Bisnis

Administrasi

Modal Manusia

Teknologi Pemampu

Standarisasi

Data dan Keamanan Data

Penjaminan Mutu

Teknologi Pembelajaran

Pendidikan Jarak Jauh (PJJ)

Mesin Pembelajar dan Kecerdasan Buatan

Realitas Tertambah (AR) untuk Pelatihan

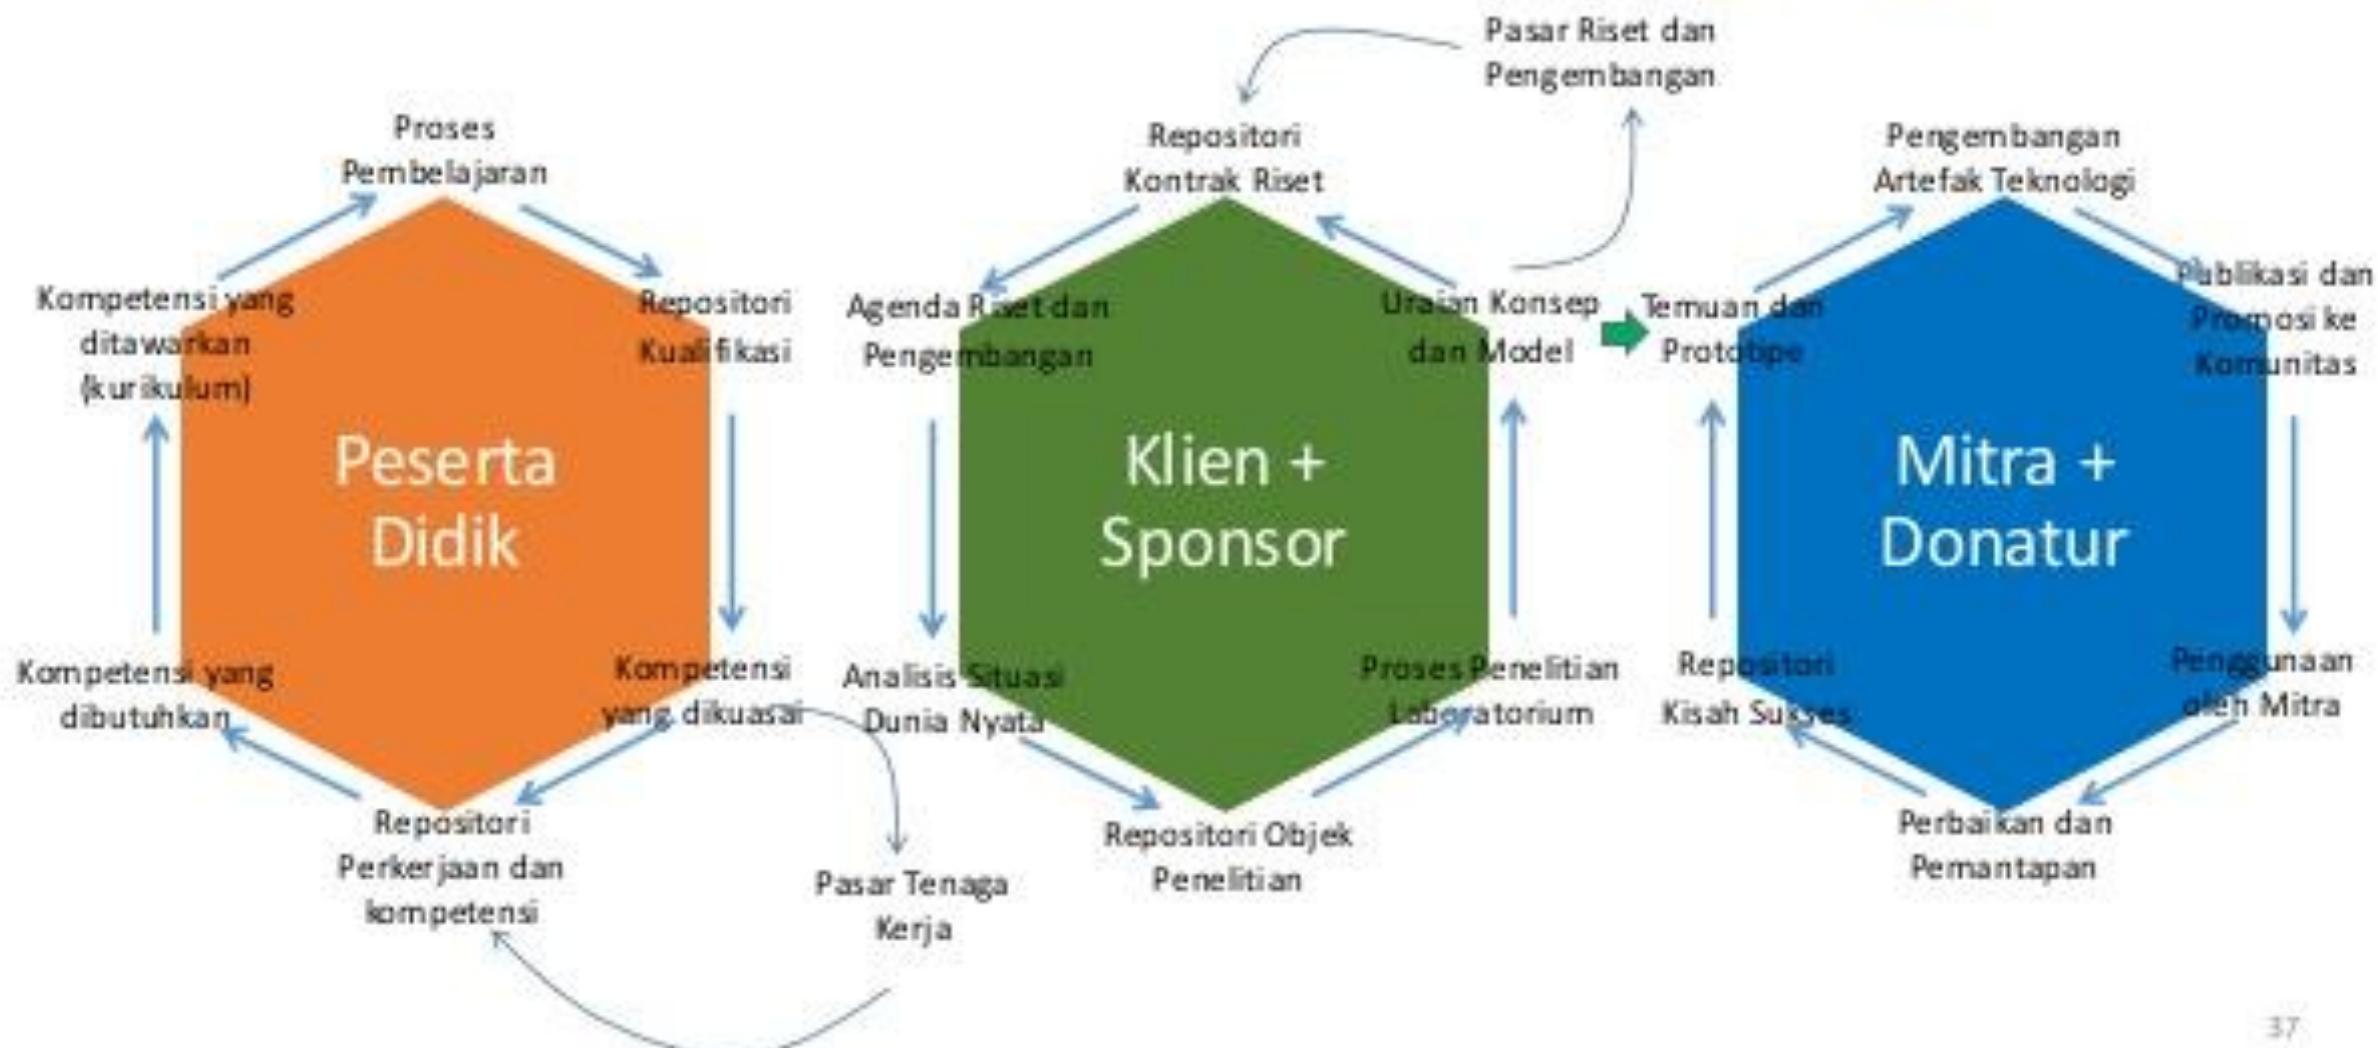

Teknologi Pemberdayaan

Inovasi Sirkuler

Inkubator Bisnis

Unit Usaha Komersial (UUK)

Wahana Universitas 4.0: Ko-Kreasi + Ko-Inovasi via Teknologi Digital

Case Studies for Urban Design & Planning of Makassar City-Indonesian

An International Perspective

Planner: innovative and creative

Challenges Ahead ERI 4.0

- Globalization
 - Flexible Accumulation & Movement of asset & investment, Global Restructuring of Financial Market
 - Changes in Production/Distribution-Supply Chain,
 - Emergence of IT, Space and Time Compression
 - Global Community – cross culture influence and global identity/branding

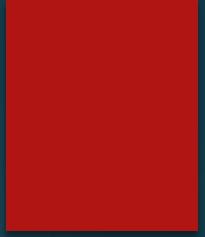

Challenges Ahead ERI 4.0

- **Urbanization**
 - more than 50% globally, live in urban
 - pressure on urban poor and environment
 - edge/satellite cities, creating traffic & urban expansion
- **Global Warming & Energy Deficiency**
 - Continuous use and dependence to non-renewable energy
 - Rising price of oil worldwide & energy crisis
 - Pollution and global heating, rise of sea level
- **Decentralization**
 - More power/authority/flexibility to regulate and plan the cities
 - But, with significant decrease of state/central government budget
 - Readiness of local government

Recent Issues in City Planning

1. Strategic Positioning of Cities

- Clearer vision and long term objective
- Cities' respond and positioning to globalization & decentralization: capture investment & flow of capital
- Cities striving to be 'Sustainable Global Cities'
- Various scale consideration: from local to district, city, regions and beyond

terima kasih IPTEK, PERGURUAN TINGGI, ERI-4.0_INOVASI & KREATIVITAS
