Manuscript Number: JOITMC-D-23-00479

Islamic Accounting Model in the Perspective of Financial Innovation

Dear Menne,

Thank you for submitting your manuscript to Journal of Open Innovation: Technology, Market, and Complexity.

I have completed my evaluation of your manuscript. The reviewers recommend reconsideration of your manuscript following major revision. I invite you to resubmit your manuscript after addressing the comments below. Please resubmit your revised manuscript by Sep 19, 2023.

When revising your manuscript, please consider all issues mentioned in the reviewers' comments carefully: please outline every change made in response to their comments and provide suitable rebuttals for any comments not addressed. Please note that your revised submission may need to be re-reviewed.

To submit your revised manuscript, please log in as an author at <https://www.editorialmanager.com/joitmc/>, and navigate to the "Submissions Needing Revision" folder.

Journal of Open Innovation: Technology, Market, and Complexity values your contribution and I look forward to receiving your revised manuscript.

Kind regards,
JinHyo Joseph Yun
Editor-in-Chief
Journal of Open Innovation: Technology, Market, and Complexity

Editor and Reviewer comments:

Reviewer #1: Dear Author(s),

Thank you for submitting your paper for review. After careful evaluation, I regret to inform you that I am recommending rejection of your paper due to several concerns. I have outlined these concerns below, along with some suggestions for improvement.

Writing Quality:

The paper could benefit from a thorough proofreading and revision to improve the clarity and coherence of the writing. The language used does not reflect the standards of academic writing, and I recommend that you consult relevant guidelines on academic writing and seek assistance from colleagues or editors to improve the quality of your writing.

Literature Review:

In most academic papers, there is no need for a separate literature review section, as the relevant literature should be integrated throughout the paper. Presenting this section suggests a lack of familiarity with standard academic conventions. I recommend restructuring your paper to incorporate the literature within the appropriate sections.

Methodology and Future Research:

The absence of a methodology section and a future research section is concerning. Both sections are essential in academic papers to provide a clear understanding of the research process and to indicate potential areas for future exploration. Please consider adding these sections to your paper.

Reference to Relevant Articles:

The paper mentions 104 relevant articles to the topic, but there is no content analysis or detailed information on these

articles. Providing a content analysis or a table summarizing the key contributions of these articles would enhance the rigor and transparency of your paper.

Focus and Scope:

The paper covers a wide range of unrelated topics, making it difficult to identify a clear focus or specialization. It would be beneficial to narrow down the scope of the paper and concentrate on a specific research question or theme.

Recent Islamic Accounting Reviews:

The paper omits some recent and relevant Islamic accounting reviews, such as:

- "Islamic accounting research between 1982 and 2020: a hybrid review," Journal of Islamic Accounting and Business Research, 2022
 - "Bibliometric analysis of the journal of Islamic accounting and business research: Ten years review," COLLNET Journal of Scientometrics and Information Management 15 (1), 63-88
- Including these reviews would strengthen the context and support for your study.

Contribution, Implication, and Soundness:

Lastly, the paper does not clearly articulate its contributions, implications, or theoretical soundness. It is crucial to outline the unique contributions of your research, the implications for both theory and practice, and the soundness of the arguments presented.

I hope these comments are helpful to you in improving your paper.

Best wishes,

Reviewer #2: Dear Authors,

Thank You for the relevant and exciting article "Islamic Accounting Model in the Perspective of Financial Innovation".

Research gap: The Islamic accounting model's design from the financial innovation perspective requires further examination. Previous studies have yet to fully explore how the Islamic accounting model can be developed based on financial innovation.

The research aim is to examine the design of the Islamic accounting model from the perspective of financial innovation.

The method used in this study is a literature review method that involves analysis and synthesis of relevant literature.

The theoretical contributions of this research are:

It develops an Islamic accounting model based on a review of relevant literature on Islamic accounting principles, financial innovation theories, and previous studies on Islamic accounting models.

It applies the Technology Acceptance Model (TAM) theory and Islamic Accounting Theory to understand how financial technology can be incorporated into the Islamic accounting model design.

It identifies key elements that need to be incorporated into the Islamic accounting model design based on financial innovation, such as understanding Islamic economic principles, applying Islamic financial technology, developing an Islamic accounting framework, and focusing on transparency and sharia compliance.

It proposes that the Islamic accounting model based on financial innovation should still follow existing accounting mechanisms and cycles but integrate financial innovation at each stage (transactions, recording, measuring, reporting, auditing) based on Sharia principles.

The references are adequate.

I think you should consider the Open Innovation concept concerning the Article's topic. Please add the Open Innovation issues in the Discussion topic, disclosing the specific features of this exciting approach to the research task.

[Associate editor Comment with EIC]

0. Please update the title as following example.

" Study on a kind of special Accounting Model in the Perspective of Financial Innovation " (Please do not use the research scope or case at the title if you are possible)

1. Do not cite papers which had been published at JOIn journal.

2. Please announce "Ethical Statement/Approval if your paper includes the research on animal and human subjects under the Bioethics Act.

(Option 1, This paper has received the approval of OOO University, Ethical Statement/Approval on 0000-00-00(date)).

(Option 2, Ethical review and approval were waived for this study, because.....(reason)).

(Option 3, No applicable because.....(reason)).

Journal of Open Innovation: Technology, Market, and Complexity values your contribution and I look forward to receiving your revised manuscript.

Kind regards,

JinHyo Joseph Yun

Editor-in-Chief

Journal of Open Innovation: Technology, Market, and Complexity

Editor and Reviewer comments:

Reviewer #1: Dear Authors,

Upon careful review and even with the presented improvements, I remain unconvinced about the overall soundness of the manuscript. Here are my specific concerns:

Title:

The current title is not representative of the content. Additionally, articles offering mere perspectives typically do not align with the expectations of this journal.

Abstract:

The abstract is overly verbose, incorporating details, such as methods and database specifics, which readers would typically refer back to the main content for.

Academic Language:

The language employed falls below the standards expected for publications in this outlet.

Introduction:

The introduction lacks key components: motivation, clear research questions, findings, the paper's contribution, and even its organization.

Literature Review:

Due to the inadequacies in the introduction, the literature review struggles to identify the research gap and the paper's unique contribution. It also does not adequately address how it builds upon or enhances existing research.

Methods:

The methodology section is deficient in several areas, most notably in the criteria for article selection and in detailing the filtration process.

Findings:

The findings deviate from the paper's main focus, venturing into unrelated areas such as Islamic economics.

In light of the above, I regret to inform you that I cannot recommend the paper for publication.

Best wishes in your future endeavors.

Reviewer #2: Dear Authors,

Thank You for making the requested changes. I can see that the manuscript has been improved.

Reviewer #3: Dear Authors,

I congratulate you on coming up with an interesting paper. Although authors have addressed the comments made by the reviewer but still there are few things more to be addressed. I have few comments, please revise it based on my comments.

1. I am not convinced with the contribution of the study. It should be emphasized in the introduction section.
2. Organization of the study is missing. The last paragraph of the study must state the organization of the paper.
3. To me introduction looks too short. Please organize your introduction in the following section.

Write the introduction the following sequence:

- a. Identify the problem. How big is the problem in question?
- b. What is the focus of your research? Is it intriguing? How intriguing is it? Explain.
- c. What has the literature accomplished? IS THERE A GAP IN THE LITERATURE?
- d. What is your proposed solution to the problem? How is it superior to the methods used by previous researchers?
- e. Write a paragraph about your study's primary findings.
- f. What are the fresh findings from your research? Who will be affected? How? What are the repercussions, both locally and globally?
- g. Study organization: What happens next? Review of the literature, methodology, analysis, results, and conclusion.

4. The literature review section must be enhanced. There are several papers cited in text are not mentioned in the reference section. The literature on Islamic accounting as well as Application of Financial Technology must be enhanced. 4. 4.Example.

<https://doi.org/10.1108/jiabr-04-2022-0111>

https://doi.org/10.1007/978-3-031-14941-2_6

<https://doi.org/10.1016/j.joitmc.2023.100129>

<https://doi.org/10.1016/j.gfj.2023.100901>

https://doi.org/10.1007/978-3-031-14941-2_12

https://doi.org/10.1007/978-3-031-14941-2_5

5. There must be separate section on Future research direction, which highlights the future research studies to be carried on in this area.

6. There are several grammatical and sentence framing error. Please check before resubmitting.

Best wishes.

[Associate editor Comment with EIC]

0. Please cite about open innovation dynamics with more than 10 papers at literature review, analysis, discussion, or implication. But do not cite JOIn.

0-1 Please update title as following example. Research scope is needed to be included in the title.

"New Accounting Model in the Perspective of Financial Innovation"

1. Do not cite papers which had been published at JOIn journal.

2. Please announce "Ethical Statement/Approval if your paper includes the research on animal and human subjects under the Bioethics Act.

(Option 1, This paper has received the approval of OOO University, Ethical Statement/Approval on 0000-00-00(date)).
(Option 2, Ethical review and approval were waived for this study, because.....(reason)).

(Option 3, No applicable because.....(reason)).

Editor and Reviewer comments:

Reviewer #3: Dear Author,

I appreciate the work done by the authors to address the comments raised by me.

Although the authors have made a significant effort to address the comments. The comments are not highlighted in the manuscript text. It should be embedded in the manuscript text and also highlighted. Merely mentioning in the reply to reviewers is not enough.

Kindly put the changes in the manuscript text and send it back.

Also, I do not understand the reply to my query No. 5. Kindly translate to English.

5. There must be a separate section on Future research direction, which highlights the future research studies to be carried on in this area.

Penelitian masa depan diharapkan mampu melahirkan satu keterikatan secara kolektif yang bersifat melembaga yang dikendalikan oleh instrument yang lebih besar seperti pemerintah daerah atau mungkin pemerintah sebuah negara, kemudian mengembangkan platform digital bisnis yang lebih friendly dan smart, sebagaimana yang telah ada saat ini seperti crowdfunding, Blockchain, cryptocurrency and other related disruptive Fintech innovations agar menyentuh seluruh stakeholder bisnis syariah dan mempermudah dalam penyusunan laporan keuangan serta pengkomunikasian informasinya kepada user secara real time. Selain itu, penelitian masa depan juga dapat mengkaji variable-variabel lain untuk meningkatkan peran dan fungsi model akuntansi syariah dengan peningkatan kualitas SDM, inklusi dan literasi keuangan syariah serta peran pemerintah dalam mendorong dan memperkuat fungsi model akuntansi syariah

baik di tingkatan nasional maupun dunia internasional

[Associate editor Comment]

Sharia Accounting Model in the Perspective of Financial Innovation

Dear Menne,

Thank you for submitting your manuscript to Journal of Open Innovation: Technology, Market, and Complexity.

I am pleased to inform you that your manuscript has been accepted for publication.

My comments, and any reviewer comments, are below.

Your accepted manuscript will now be transferred to our production department. We will create a proof which you will be asked to check, and you will also be asked to complete a number of online forms required for publication. If we need additional information from you during the production process, we will contact you directly.

We appreciate and value your contribution to Journal of Open Innovation: Technology, Market, and Complexity. We regularly invite authors of recently published manuscript to participate in the peer review process. If you were not already part of the journal's reviewer pool, you have now been added to it.

We look forward to your continued participation in our journal, and we hope you will consider us again for future submissions.

Kind regards,
JinHyo Joseph Yun
